

Outdoor learning journey

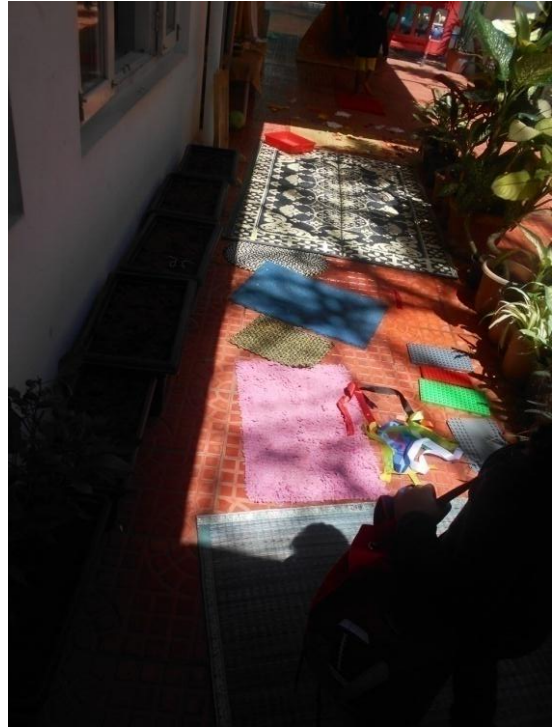

Childs Name : Aryan and Dia
Taarra

Date : 20/07/17

Learning and development area	Context /Summary
<p>Identity</p> <ul style="list-style-type: none"> • Building a sense of security and trust • Acting with increasing independence and perseverance 	<p>Aryan was on his way to sandpit and he found the floor to be wet as it had rained. So he decided to make a dry path for himself...</p>
<p>Connectedness</p> <ul style="list-style-type: none"> • Building positive relationships with others • Showing increasing respect for diversity 	<p>He was finding ways to reach the sandpit and started to pickup things from the environment to make a path.</p> <p>Dia joined in and they began to work collaboratively to find different things in outdoors and indoors.</p>
<p>Wellbeing</p> <ul style="list-style-type: none"> • Exploring ways to promote own and others health and safety • Exploring ways to promote physical well being 	<p>A child known for his cleanliness was reluctant to walk on the wet floor as his socks would get wet.</p> <p>When the path was ready he called his friends to walk on the path he made so that they would not wet their feet.</p>

Learning and development area

Active learning

- Increasing confidence and involvement in learning
- Engaging in ways to be imaginative and creative

He chose to take the big mat from the class ,realized it to be big, so he picked up smaller mats to start with.

Later he chose lego blocks to which his friend said it could be poky...so he picked up the pattern blocks which was flat.

Finally they put some tissues which sadly got wet.....they concluded saying mats were a better option.

Communicating

- Exploring and expanding ways to use language
- Exploring and engaging with literacy in personally meaningful ways

Whole process involved lot of interaction showing their understanding of concepts like size , texture, discussion to find new things and solve the problem...

"This mat is heavy I cant take it outside..."

Oh look the tissue has got wet...

This block is poky...

This block is smooth we can use it..."
